

Hello Sound Wave Band Families,

This year has possibly been the hardest year for selection of leadership for so many reasons. I've spent the last year getting to know everyone in and out of the classroom and I have enjoyed learning about everyone as a band student. In combing through applications, teacher recommendations, and video auditions, it is so clear that everyone has the best of intentions for the band program. The answers students gave for the leadership questions were insightful, intelligent, and thought provoking.

I spent many hours debating and discussing with myself and the staff about the leadership team. I wish I could give everyone their first choice leadership position as I think everyone would do a great job given the opportunity. Even if a student did not receive their preference, they are an important part of the leadership team. YOU are an important part of the leadership team! And now, more than ever, the band needs your help to lead by example and be a positive influence to our band family.

Leadership will meet **Monday, July 13 at 10:00 am - 12:00 pm** in the band room to discuss their roles & details moving forward. You will not need your gallon of water on Monday, but please bring your own water as the fountains will not be available. Please wait in your cars until you are ready to be screened for entrance. Students are expected to wear a mask, and please bring a pencil & notebook with you.

Please be sure to read over the additional guidelines that will be posted this week to follow before arriving for our meeting.

And now...

I am proud to present the 2020-2021 Sound Wave Band Leadership Team!

**Sound Wave Leadership  
2020 - 2021**
